Re: Docket Number: E-01345A-16-0036 + E-01345A-16-0123

Dear Chair Forese and Commissioners,

As we approach the public hearing in the APS rate case, I exhort you to take into account the effect a service charge increase would have on small businesses.

Being a small business owner my main focus is to stay in business and to make a profit so I can make ends meet in my life and for those who work for me. At times it is a very fine line between staying afloat and closing my doors. So even thinking of any kind of increase in my utility bills could be the one thing that takes me over the edge. That is why I have to oppose this increase not only for myself but for those who look to me to give them the opportunity to support their families.

I heard the Commission staff and the Residential Utility Consumer Office has said the APS rate increase is not justified. It troubles me that APS would want me to pay more for something that is not warranted.

Moving forward in this case, I implore you to advocate for the small business owners who depend on APS. It is always great to have the support and vision of the Corporation Commission fighting to protect the best interests of great people of Arizona.

Thank you for your support,

Dave & Luke Jonas
